

uultis

Metais, concreto, lajes. Todo lar é feito disto.

Mas há elementos muito mais nobres envolvidos.

São as histórias que estes lugares guardam. Os momentos que eles acolhem.

É sobre criar um espaço que traduza quem você é. Valorize o que você ama. Inspire como você vive.

Quando seu desejo ocupa espaços, o sentir se torna sólido.

Mobiliar é bem mais que decorar. É expressar sua essência. Dar forma às suas aspirações.

Uultis não são apenas móveis com design. Acreditamos em valor, orgulho e estilo. Uma experiência memorável que ecoa pela vida.

Detalhes jamais são só detalhes. Cada peça é projetada de forma única. O cuidado artesanal que jamais despreza a tecnologia.

Essa é a sofisticação que leva a marca do nosso tempo. A inspiração é você, que é capaz de desenhar a própria vida.

Nossas peças acolhem suas histórias. Transformam o especial em extraordinário. Elevam o seu viver.

Porque na vida, como em casa, cada escolha celebra a pessoa totalmente única que você é.

Uultis. Expressões de vida.

SKIN+

Tecnologia revolucionária.

SKIN+ é uma abordagem inovadora em cuidados com a pele. O tecido é enriquecido com probióticos que produzem carotenóides que são pigmentos orgânicos e antioxidantes. Esses elementos protegem a pele dos danos causados pela luz ultravioleta, prevenindo e reparando danos celulares relacionados ao envelhecimento, propiciando uma pele mais jovem, hidratada, macia e suave.

Como funciona?

O SKIN+ contém microcápsulas com o probiótico patentado *Bacillus indicus* PD01. Com o contato do corpo com o colchão, essas cápsulas se rompem, permitindo que os microorganismos produzam carotenóides 10 vezes mais potentes do que os encontrados em frutas como tomate e melancia. Os carotenóides são liberados, mesmo através de roupas e lençóis, e são absorvidos pela pele humana.

Cuidado sem esforço e duradouro.

A dosagem de SKIN+ é calculada para corresponder ao efeito da aplicação diária de um creme de carotenóide para a pele. Uma vez ativada a tecnologia, a produção de carotenóides continua, as microcápsulas com os probióticos aderem fortemente às fibras têxteis, cobrindo assim toda a vida útil do colchão.

Eficácia comprovada.

O papel dos carotenóides na pele humana está documentado em muitos estudos científicos. A ProDigest testou e certificou que os probióticos presentes no SKIN+. Direcione a câmera do seu smartphone para os QR Codes e confira o certificado e o relatório de teste de eficácia do SKIN+.

SKIN+

Tecnologia revolucionária.

SKIN+ é uma abordagem inovadora em cuidados com a pele. O tecido é enriquecido com probióticos que produzem carotenóides que são pigmentos orgânicos e antioxidantes. Esses elementos protegem a pele dos danos causados pela luz ultravioleta, prevenindo e reparando danos celulares relacionados ao envelhecimento, propiciando uma pele mais jovem, hidratada, macia e suave.

Como funciona?

O SKIN+ contém microcápsulas com o probiótico patentado *Bacillus indicus* PD01. Com o contato do corpo com o colchão, essas cápsulas se rompem, permitindo que os microorganismos produzam carotenóides 10 vezes mais potentes do que os encontrados em frutas como tomate e melancia. Os carotenóides são liberados, mesmo através de roupas e lençóis, e são absorvidos pela pele humana.

Cuidado sem esforço e duradouro.

A dosagem de SKIN+ é calculada para corresponder ao efeito da aplicação diária de um creme de carotenóide para a pele. Uma vez ativada a tecnologia, a produção de carotenóides continua, as microcápsulas com os probióticos aderem fortemente às fibras têxteis, cobrindo assim toda a vida útil do colchão.

Eficácia comprovada.

O papel dos carotenóides na pele humana está documentado em muitos estudos científicos. A ProDigest testou e certificou que os probióticos presentes no SKIN+. Direcione a câmera do seu smartphone para os QR Codes e confira o certificado e o relatório de teste de eficácia do SKIN+.
